PROFESSIONAL SUMMARY

Senior Product Manager with 5+ years owning the full product lifecycle across fintech security, e-commerce, logistics and education technology. I set product vision and roadmaps, lead cross-functional teams of engineers, designers and operations, and turn user insight and data into measurable outcomes: an 18% lift in checkout conversion, a 15% drop in platform fraud incidents and a 22% gain in course completion. Experienced in identity verification, trust and security products, and in presenting strategy to senior stakeholders to secure continued investment.

KEY ACHIEVEMENTS

- Reduced platform fraud incidents by **15%** within six months by leading trust-based security features (Trustesse).
- Increased checkout conversion by **18%** and daily active users by **20%** on a high-traffic e-commerce platform (Shopta).
- Improved course completion by **22%** and NPS by **12 points** through a personalised learning dashboard and automated feedback loops (Edswot).
- Raised activation by **12%** through data-led A/B testing and launched 7 features that lifted customer satisfaction by **15%** (Movam).
- Launched 30+ digital product features across roles and improved team efficiency by **20%** through workflow automation and sprint optimisation.
- Presented quarterly product updates to senior stakeholders, securing continued investment and roadmap alignment.
